

am here and I own it, what I did was convenient, lessons learned and prices are being paid. I am using this time to make myself a better person and to reflect on the life I want to live. I am a cosmetologist, a bartender, and a rigger. I love interacting with people, vibes, good music drives me, I love all kinds country to rap and hard rock in between. I've always lived in the big cities but I wonder if it's time to try a smaller life because I'm no longer a girl living fast and free. I'm a woman; I have desires and ideas building up inside of me...

I'll be out in 2026 so that is a good amount of time to get to know me for who it is I am becoming, my hopes my dreams. I want a man who can set goals with me. I want to flip houses using them as vacation rentals. This idea excites me. I'm OK with relocating.

I love to create, love to cook. If we are staying home it's gonna be red wine for me. If we are gonna go out it's beer buzzed. I'm not a 50's housewife but we can pretend. Just go hard on the Beaver dear. I'm that girl that will be rating other women.

I am down if you do or don't have kids at this stage of life. We all most have them.

I want you to get to know me, my hope, dreams. I need for there to be an Us, so we trust what we are building, creating, a life of love that can support the lust.

I can only call and write letters when you email me put phone number and address to contact you.
